With 231 million EUR invested over the half-year, including the delivery of several projects which contribute to our objective of reducing the energy intensity of our portfolio, Cofinimmo is still aiming at achieving the investment budget of 375 million EUR planned for 2020. Furthermore, the two capital increases of June (optional dividend and contributions in kind) totalling almost 143 million EUR and the financing operations concluded over the half-year are strengths from which Cofinimmo benefits to implement its strategy. With a debt-to-assets ratio of 41.8%, Cofinimmo's consolidated balance sheet shows a strong solvency, which is a valuable asset in the current challenging environment."*

## **1. Interim management report**

### **1.1. Summary of activity since 01.01.2020**

For more than 35 years, Cofinimmo has been developing, managing and investing in rental real estate. Attentive to societal changes, Cofinimmo's permanent objective is to offer high quality care, living and working spaces (*'Caring, Living and Working - Together in Real Estate'*). Capitalising on its expertise, Cofinimmo consolidates its leadership in European healthcare real estate.

Following the outbreak of the COVID-19 coronavirus pandemic in the countries where the group is active, Cofinimmo has implemented several measures to ensure the continuity of its activities, while making the health and well-being of all its stakeholders its priority.

As from 09.03.2020, Cofinimmo's executive committee encouraged its employees to switch to teleworking for all tasks which do not require a physical presence on site. As teleworking is an already embedded solution, widely used by the company's employees, no particular difficulties were experienced. This measure was subsequently further strengthened, and then adapted, in order to stay compliant with the framework of the decisions taken by the authorities.

The operational teams remain in close contact with the group's tenants to ensure the continuity of services and help them get through this difficult period. Cofinimmo reviews the situation of its counterparties on a case-by-case basis in order to find a balanced solution where appropriate. In the light of the current health crisis, Cofinimmo conservatively reviewed its outlook for the net result from core activities - Group share as early as April, and confirms this outlook. In this context, in order to reflect the doubts as to the current ability of some tenants to pay their rents, and without prejudging the outcome of the discussions with these tenants, Cofinimmo has already booked writedowns on trade receivables for approximately 2 million EUR.

The lockdown measures of the 1<sup>st</sup> half-year of 2020 have had very little impact on ongoing construction sites and investment projects. As from mid-May, Cofinimmo was able to resume the execution of its growth strategy and is, despite the current challenging context, still aiming at achieving the investment budget of 375 million EUR planned for 2020. Indeed, investments in the first half-year amount to 231 million EUR. This amount includes the delivery of several projects which contribute to the objective of reducing the energy intensity of the assets by 30% by 2030.

In healthcare real estate, the group further expanded its portfolio through several acquisitions and the delivery of several construction projects totalling 182 million EUR in the 1<sup>st</sup> half-year. The most noteworthy transaction was carried out in June with the acquisition of six healthcare sites (through contributions in kind) for 105 million EUR. As at 30.06.2020, healthcare real estate assets (2.6 billion EUR, up 7% over six months) represent 57% of the group's portfolio, which now reaches 4.5 billion EUR.

In the office segment, Cofinimmo is also executing its strategy which consists in rebalancing its office portfolio between the various sub-segments to the benefit of high-quality buildings located in the Central Business District of Brussels ('CBD'). The acquisition of Trône/Troon 100 and the provisional acceptance of the Quartz reinforce Cofinimmo's position in the CBD. In parallel, Cofinimmo carried out the assignment of the property rights relating to office buildings in the decentralised area of Brussels and also signed a sale agreement for another asset located in the periphery.

In terms of financing, several operations have further improved the balance sheet structure and the maturity timetable of the financial debt, which no longer comprises any significant maturity prior to September 2021. In addition to the capital increases totalling almost 143 million EUR (contributions in kind and optional dividend), Cofinimmo contracted new credit lines for more than 800 million EUR and extended the maturity

of its syndicated loan to 2025 (2024 before). On 01.07.2020, and after deduction of the backup of the commercial paper programme, Cofinimmo had 900 million EUR of headroom.

The Group's momentum in terms of investments and financing (average cost of debt decreased at 1.3%), coupled with effective management of the existing portfolio (occupancy rate of 97.5%, gross rental revenues up 1.6% on a like-for-like basis, operating margin increased to 83.1%), enabled the company to realise a net result from core activities - Group share of 88 million EUR as at 30.06.2020, in line with the outlook announced last April<sup>1</sup> (compared to the 75 million EUR that were made as at 30.06.2019), mainly due to scope variations arising from the acquisitions made and the decrease in operating costs related to the office buildings sold. This result includes the support (announced last April) of initiatives aiming at fighting against the coronavirus pandemic and its effects in the healthcare sector, and more particularly in nursing and care homes as well as hospitals. The net result from core activities per share - Group share amounts to 3.40 EUR (in line with the outlook, compared to 3.23 EUR as at 30.06.2019), taking into account the issue of shares in 2019 and June 2020.

The net result - Group share amounted to 60 million EUR (i.e. 2.31 EUR per share) as at 30.06.2020, compared to 71 million EUR (i.e. 3.07 EUR per share) as at 30.06.2019. This variation is mainly due to the increase in the net result from core activities - Group share and to value adjustments (investment properties, hedging instruments, goodwill, i.e. non-cash changes) between the 1<sup>st</sup> half-year of 2019 and the 1<sup>st</sup> half-year of 2020.

With a debt-to-assets ratio of 41.8% as at 30.06.2020 (which has changed little since) Cofinimmo's consolidated balance sheet (whose BBB/A-2 rating was confirmed on 20.04.2020) shows a strong solvency, which is a valuable asset when addressing the current crisis (information on risks and uncertainties related to the coronavirus COVID-19 are stated in section 1.13).

#### 1.4. Major events occurring during the 1<sup>st</sup> half-year of 2020

##### 1.4.1. Healthcare real estate in Belgium

- **Investments in the 1<sup>st</sup> half-year of 2020: 107 million EUR**
- **Investments in the 2<sup>nd</sup> quarter of 2020: 107 million EUR**
- **Healthcare real estate portfolio in Belgium at 30.06.2020: 1,326 million EUR (78 sites)**

Cofinimmo's healthcare real estate portfolio in Belgium has a fair value of 1.3 billion EUR. During the 1<sup>st</sup> half-year of 2020, Cofinimmo invested 107 million EUR in it.

#### Main accomplishments:

- **Acquisition of six healthcare sites through contributions in kind**

On 10.06.2020, Cofinimmo signed an agreement regarding the acquisition of six healthcare sites in Belgium through contributions in kind of the shares of six companies. The conventional value of the assets for the calculation of the share price was established at approximately 105 million EUR, whereas the value of the contributions in kind amounted to 98,520,698.88 EUR. Within this framework, 825,408 new shares were issued (see section 1.9.1.2 below).

Nursing and care home Puthof – Borgloon (BE)

Nursing and care home Keiheuvel – Balen (BE)

Together, the sites offer a total above-ground surface area of more than 38,000 m<sup>2</sup> and a capacity of 562 beds. They are spread across Flanders. The buildings in this portfolio have a good average energy intensity. They were built using modern and sustainable materials. Most of the buildings are equipped with photovoltaic panels and innovations to increase the residents' comfort: high-efficiency glazing, an advanced double-flow ventilation system for air supply and extraction (D ventilation system), rainwater recovery, LED lighting, roof insulation and water softeners are just a few of the features that contribute to limiting the carbon footprint of these buildings. In addition, the installation of additional photovoltaic panels on some sites is currently being considered, which could further reduce energy consumption. All assets are easily accessible by public transport and are located in green areas or have a garden.

Cofinimmo welcomes the new operator 'Orelia Zorg SA/NV'. This group specialises in elderly care and has more than 40 years of experience both in the construction and the operation of nursing and care homes. In order to increase the residents' and employees' comfort, an optimum architecture is considered from the concept phase onwards. 'Orelia Zorg SA/NV' continuously invests in enriching its knowledge about care and supporting techniques, which creates space for healthcare innovation. It employs more than 500 people. Almost 900 residents receive premium care in 11 nursing and care homes and assisted living clusters.

For all six assets, triple net<sup>1</sup> agreements with a term of 27 years were concluded with the operator mentioned above. The rents are indexed based on the Belgian consumer price index. The gross rental yield is approximately 4.5%, which is in line with the current market conditions and the quality of the sites.

**1.4.2. Healthcare real estate in France**

- **Investments in the 1<sup>st</sup> half-year of 2020: 26 million EUR**
- **Investments in the 2<sup>nd</sup> quarter of 2020: 26 million EUR**
- **Healthcare real estate portfolio in France at 30.06.2020: 398 million EUR (49 sites)**

In France, Cofinimmo holds investment properties in healthcare real estate for a fair value of 398 million EUR, and finance lease receivables for 21 million EUR. During the 1<sup>st</sup> half-year of 2020, Cofinimmo invested 26 million EUR in it.

Main accomplishments:

- **Repurchase of the shares held by the Orpea group in Cofinea I**

On 05.06.2020, Cofinimmo repurchased Orpea's participation in the joint venture Cofinea I SAS for a total amount of almost 8 million EUR. In accordance with Article 37 § 1 of the Law of 12.05.2014 on regulated real estate companies, the operation has previously been brought to the attention of the FSMA. Cofinimmo now holds 100% of the capital of this French subsidiary, which owns an investment property valued at approximately 24 million EUR to which an investment loan of 9 million EUR is attached.

As a reminder, the Orpea group and the Cofinimmo group acquired in 2012, through their joint venture Cofinea I SAS, the nursing and care home 'Les Musiciens' located in the 19<sup>th</sup> arrondissement of Paris<sup>2</sup>. Cofinea I is a company under French law in which Cofinimmo held 51% of the capital and the Orpea group the remaining 49%.

- Investments in the 1<sup>st</sup> half-year of 2020: 10 million EUR
- Investments in the 2<sup>nd</sup> quarter of 2020: 7 million EUR
- Healthcare real estate portfolio in the Netherlands at 30.06.2020: 301 million EUR (41 sites)

Cofinimmo's healthcare real estate portfolio in the Netherlands has a fair value of 301 million EUR. During the 1<sup>st</sup> half-year of 2020, Cofinimmo invested 10 million EUR in it.

#### Main accomplishments:

- **Delivery of the extension of an orthopaedic clinic in Rijswijk**

The extension of an orthopaedic clinic in the city of Rijswijk, located between Delft and The Hague, was delivered on 13.02.2020. As a reminder, mid-October 2018, Cofinimmo acquired a plot of land for this asset<sup>1</sup>. The building offers accommodations and consultation rooms, spread over a total above-ground surface area of almost 4,000 m<sup>2</sup>, and provides approximately 130 parking spaces on the ground floor. The budget of the works amounted to approximately 11 million EUR (plot included). The site is operated by Bergman Clinics, with whom Cofinimmo signed a triple net<sup>2</sup> lease for 15 years. The gross rental yield amounts to more than 6%.

Fixtures have been installed to reduce the building's energy consumption; 162 photovoltaic panels have been installed on the roof and the building is lit exclusively by LED lamps, which are more energy efficient.

- **Acquisition of a nursing and care home in The Hague**

On 14.05.2020, Cofinimmo acquired, through one of its subsidiaries, a nursing and care home located in The Hague for approximately 14 million EUR. This amount comprises the value of the current building as well as the budget for the works to be carried out.

The building acquired is a former nursing and care home with an above-ground surface area of approximately 5,100 m<sup>2</sup> which dates back to 1986 and is located in a residential area of The Hague, the capital of the South-Holland province where the Dutch government and parliament are also based. The nursing and care home is easily accessible by public transport from the nearby Central Station.

Cofinimmo chose to have the site completely renovated, including a small extension at the back of the building. This allows certain building materials to be reused and raw materials to be used more rationally, resulting in a significantly lower environmental impact than that of new constructions. The works will provide a modern and sustainable nursing and care home of almost 5,400 m<sup>2</sup> with 87 beds for persons who need substantial care. A restaurant is foreseen in the building which will also be accessible to visitors.

Modern techniques and sustainable materials will contribute to the limited carbon footprint of the building. New high-efficiency glazing, energy-efficient installations such as heat pumps and LED lighting, a renovated roof with insulation and solar panels will also contribute to the building being awarded an energy label A (vs. a level D before).

In order to carry out these renovation works, Cofinimmo has concluded a turnkey construction contract with 'Formabouw B.V'. The works (for which a budget of approximately 10 million EUR is foreseen) will start soon and their delivery is forecasted in September 2021.

On-site treatments will be offered to patients/residents with moderate to high healthcare needs. The renovation is designed with a long-term view in order to offer rooms for heavier treatments and to enable patients/residents to stay in the facilities regardless of their healthcare needs. **1.9. Management of financial resources**

During the 1<sup>st</sup> half-year of 2020, Cofinimmo reinforced its financial resources and its balance sheet structure. The financing operations during this 1<sup>st</sup> half-year enabled the Group to improve the maturity timetable of its financial debts, to considerably increase available bank financing, to maintain an average cost of debt at particularly low levels and to maintain its maturity. The various operations carried out are stated hereunder.

**1.9.1. Capital increases since 01.01.2020**

During the 1<sup>st</sup> half-year of the 2020 financial year, Cofinimmo proceeded to two capital increases (optional dividend and contributions in kind) totalling approximately 143 million EUR.

**1.9.1.1. Optional dividend**

The ordinary general meeting of 13.05.2020 had decided to distribute for the 2019 financial year a gross dividend of 5.60 EUR per share (or a net dividend of 3.92 EUR per share).

The board of directors decided to offer shareholders the choice between receiving the dividend payment for the year 2019 in new shares or in cash, or to opt for a combination of both means of payment. The subscription price of one new share was set at 113.68 EUR. The new shares will be entitled to Cofinimmo's results as from 01.01.2020 (first dividend payable in 2021).

Shareholders were invited to communicate their choice between the different payment modalities between 20.05.2020 and 05.06.2020.

A total of 43.5% of the 2019 dividend coupons were contributed to the capital against new shares. This resulted in the issue of 387,226 new shares for a total amount of 44.0 million EUR. The subscription price of 113.68 EUR per new share was 7.4% below the volume-weighted average stock market price of the share during the subscription period (122.74 EUR).

The remaining dividend pay-out was settled in cash for a net total amount of 57.2 million EUR (amount from which the withholding taxes on dividends relating to reinvested and non-reinvested coupons has been deducted). The payment in cash and/or the delivery of securities was made as from 09.06.2020. The effective day of listing of the new shares was 11.06.2020.

As a result, Cofinimmo's share capital was represented by 26,236,509 shares.

Funds not paid in cash will be used by the company to finance property acquisitions and renovation projects.

**1.9.1.2. Contributions in kind followed by a private placement**

On 10.06.2020, Cofinimmo signed an agreement regarding the acquisition of six healthcare sites in Belgium through contributions in kind of the shares of six companies (see section 1.4.1. of this report). The conventional value of the assets for the calculation of the share price amounted to approximately 105 million EUR, whereas the contributions in kind amounted to 98,520,698.88 EUR. Within this framework, 825,408 new shares were issued.

Part of the new shares were offered on the same day within the framework of a private placement with institutional investors. Trading in Cofinimmo shares on the regulated Euronext Brussels market was temporarily suspended due to this private placement.

**REGULATED INFORMATION**

Brussels, embargo until 30.07.2020, 5:40 PM CET

This private placement was successfully concluded. 526,000 shares were placed with institutional investors at a price of 121.00 EUR, which represents a discount of 3.8% compared to the closing price of the previous day. The trading in the Cofinimmo resumed on the next day.

Following this transaction, Cofinimmo's capital was represented by 27,061,917 shares.

## **1.9.2. Financing operations since 01.01.2020**

### **1.9.2.1. Financing developments**

- 06.01.2020: Conclusion of a new bilateral credit line of 50 million EUR for five years;
- 15.01.2020: Maturity of a bilateral credit line of 50 million EUR concluded in 2015;
- 07.02.2020: Repayment of 140 million EUR of bonds issued in 2012;
- 14.02.2020: New bilateral credit line of 20 million EUR for four years provided by a Spanish bank;
- 21.02.2020: Issue of commercial papers for a total amount of 24 million EUR for eight years;
- 25.02.2020: Repayment of commercial papers for 6 million EUR issued in 2015;
- 23.03.2020: New bilateral credit line of 50 million EUR for five years;
- 01.04.2020: Early refinancing of a credit line of 55 million EUR maturing in October 2020 to postpone its maturity to 2028 and 2029 (2 x 27.5 million EUR);
- 15.04.2020: In order to encourage long-term issues, Cofinimmo has decided to increase the maximum amount of the programme from 800 million EUR to 950 million EUR with a view to issuing more commercial papers whose maturity will be longer than one year. The increase in the programme is actually reserved solely for long-term issues; the programme for short-term commercial papers remains limited to 800 million EUR.
- 23.04.2020: Early refinancing of a credit line of 40 million EUR maturing in August 2020. This was initially a traditional credit line, refinanced in the form of a 'green & social' loan for three years. In accordance with its sustainability strategy and its performance table, the 'green & social' loan will be used by Cofinimmo to refinance projects with both environmental and social objectives;
- 04.05.2020: Signature of the extension of the syndicated loan of 400 million EUR for one additional year to postpone its maturity to 01.07.2025;
- 11.05.2020: Increase of the syndicated loan amount by 28 million EUR to bring it to 428 million EUR;
- 09.06.2020: New bilateral credit lines of 38 million EUR for seven years, replacing a credit line of 25 million EUR maturing in 2025;
- 12.06.2020: Issue of commercial papers totalling 5 million EUR for eight years;
- 01.07.2020: New credit line of 500 million EUR concluded for two years.

### **1.9.2.2. Interest rate hedging**

The 1<sup>st</sup> half-year enabled Cofinimmo to continue the increase of its hedging over a period of ten years. IRS for the years 2025 (100 million EUR), 2026-2027-2028 (200 million EUR) and 2029 (100 million EUR) were subscribed in order to increase hedging for these years.

Cofinimmo also increased its hedging for the coming years with the subscription of caps for 2020 (150 million EUR), 2021 (50 million EUR) and 2022 (150 million EUR).

In July, subscribed two new caps for 50 million EUR in order to increase its hedging for 2021 (50 million EUR) and 2022 (100 million EUR).

**1.9.3. Debt structure**

As at 30.06.2020, the current and non-current consolidated financial debt was 1,853 million EUR. It consisted of the following:

**1.9.3.1. Non-current financial debt (1,042 million EUR)**

As at 30.06.2020, Cofinimmo's non-current financial debt was 1,042 million EUR, of which:

**1.9.3.1.1. Bond market**

- 260 million EUR accounting for two straight bonds:

Issuer	Nominal amount (x 1,000,000 EUR)	Issue price	Coupon	Issue date	Maturity date
Cofinimmo SA/NV	190	100%	1.929%	25.03.2015	25.03.2022
Cofinimmo SA/NV	70	99.609%	1.700%	26.10.2016	26.10.2026

- 55 million EUR of straight 'Green and Social Bonds':

Issuer	Nominal amount (x 1,000,000 EUR)	Issue price	Coupon	Issue date	Maturity date
Cofinimmo SA/NV	55	99.941%	2.00%	09.12.2016	09.12.2024

These bonds are part of the Euronext ESG Bonds community, which brings together European issuers of 'Green & Social' bonds that meet various objective criteria. Cofinimmo is currently one of the few issuers listed in Brussels participating in this committed European community. The other Belgian issuers being a Belgian banking group, the Belgian State, the Walloon Region and a Belgian wastewater treatment company.

- 2 million EUR for unmatured accrued interest on bond issues;
- 225 million EUR of bonds convertible into Cofinimmo shares:

Issuer	Nominal amount (x 1,000,000 EUR)	Issue price	Conversion price	Coupon	Issue date	Maturity date
Cofinimmo SA/NV	219.3	100%	135.8237 EUR	0.1875%	15.09.2016	15.09.2021

These convertible bonds are valued at market value on the balance sheet.

- 69 million EUR of long-term commercial paper;
- 3 million EUR mainly corresponding to the discounted value of the minimum coupon of the Mandatory Convertible Bonds issued by Cofinimur I in December 2011.

**REGULATED INFORMATION**

Brussels, embargo until 30.07.2020, 5:40 PM CET

**1.9.3.1.2. Bank facility**

- 420 million EUR of committed bilateral and syndicated loans, with an initial term of five to ten years, contracted with approximately ten financial institutions;
- 9 million EUR in rental guarantees received.

**1.9.3.2. Current financial debts (811 million EUR)**

As at 30.06.2020, Cofinimmo's current financial debts amounted to 811 million EUR, of which:

**1.9.3.2.1. Financial markets**

- 789 million EUR of commercial papers with a term of less than one year, of which 244 million EUR with a term of more than three months. The short-term commercial papers issued are fully backed up by availabilities on committed long-term credit lines. Therefore, Cofinimmo benefits from the attractive cost of such a short-term financing programme, while ensuring its refinancing in the event that the issue of new commercial paper becomes more costly or impracticable.
- 10 million EUR of commercial papers initially concluded on a long-term basis and whose residual term is less than one year.

**1.9.3.2.2. Bank facilities**

- 12 million EUR of other loans.

**1.9.4. Consolidated debt-to-assets ratio**

As at 30.06.2020, Cofinimmo met the consolidated and statutory debt-to-assets ratio test. Its consolidated debt-to-assets ratio (calculated in accordance with the regulations on RRECs as follows: financial and other debts / total assets) reached 41.8% (compared to 41.0% as at 31.12.2019). As a reminder, the maximum debt-to-assets ratio for RRECs is 65%.

When the loan agreements granted to Cofinimmo refer to a debt covenant, they refer to the regulatory debt-to-assets ratio and cap it at 60%.

**1.9.5. Weighted average maturity of financial debts**

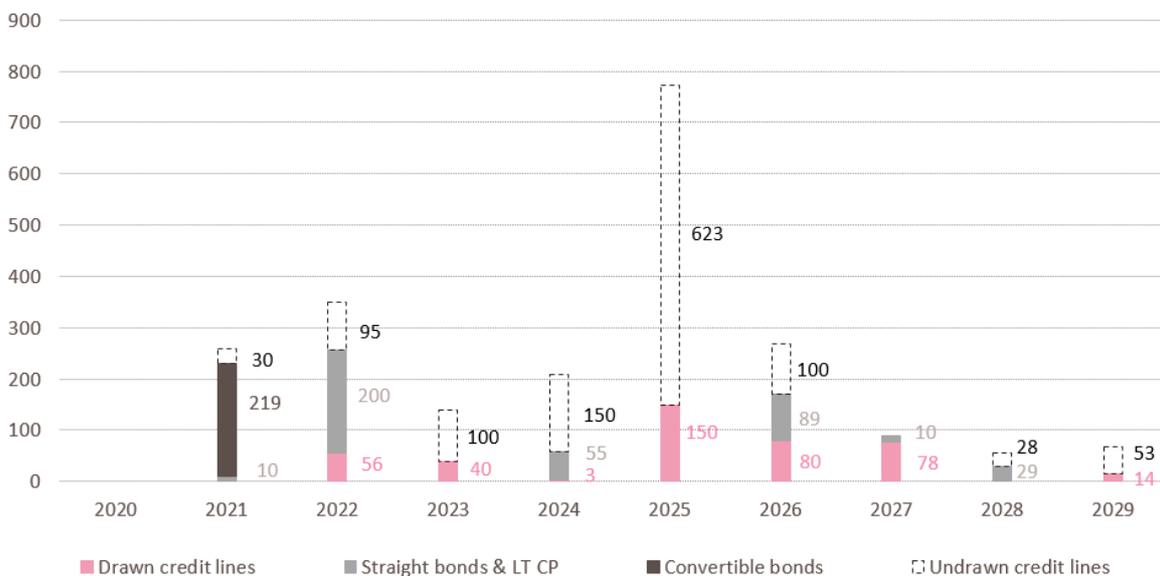

The weighted average maturity of the financial debts remained stable at four years between 31.12.2019 and 30.06.2020. This calculation excludes short-term commercial paper maturities, which are fully hedged by tranches available on committed long-term credit lines.

Committed long-term credit lines (bank credit lines, bonds, commercial paper with a term of more than one year and term loans), for which the total outstanding amount is 2,211 million EUR as at 30.06.2020, mature on a staggered basis until 2029.

Schedule of long-term financial commitments as at 30.06.2020 (x 1,000,000 EUR)

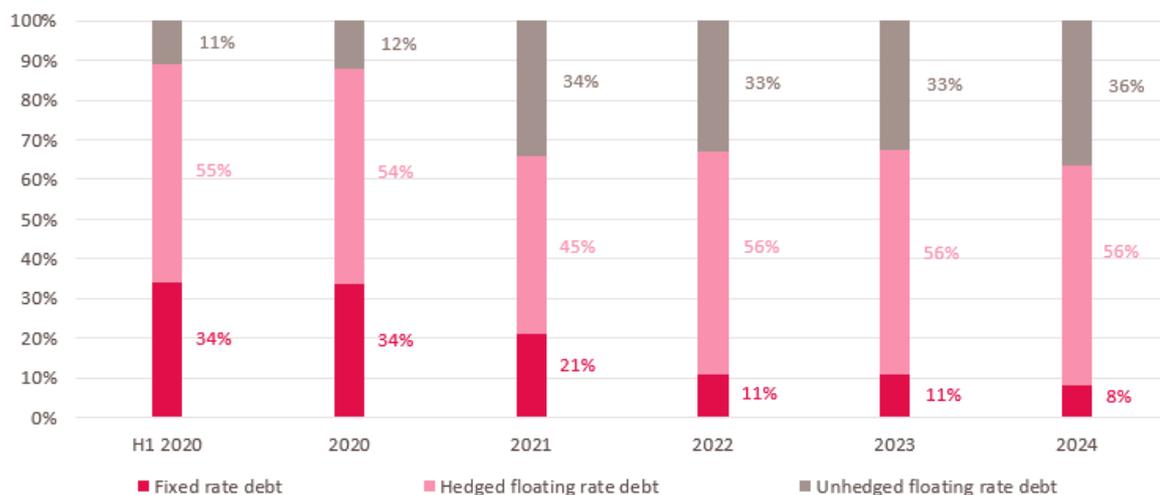

**1.9.6. Average cost of debt**

The average cost of debt, including bank margins, stood at 1.3% for the 1<sup>st</sup> half-year of the 2020 financial year, compared to 1.4% to the 2019 financial year.

Cofinimmo opts for the partial hedging of its floating rate debt through the use of interest rate swaps ('IRS') and caps. Cofinimmo conducts a policy aimed at securing the interest rates for a proportion of 50% to 100% of the expected debt over a minimum horizon of three years. In this context, the Group uses a global approach ('macro hedging'). It therefore does not individually hedge each of the many floating-rate credit lines.

The breakdown of expected fixed-rate debt, hedged floating-rate debt and unhedged floating-rate debt is presented as shown in the graph below.

**REGULATED INFORMATION**

Brussels, embargo until 30.07.2020, 5:40 PM CET

To date, the interest rate risk is hedged at more than 60% until the end of 2024. The projected debt is hedged at nearly 90% for the rest of 2020. Cofinimmo's result nevertheless remains sensitive to fluctuations in interest rates.

**1.9.7. Availabilities**

Taking into account the conclusion of a new credit line of 500 million EUR made on 01.07.2020, availabilities on committed credit lines reached 1,678 million EUR. After deduction of the backup of the commercial paper programme, Cofinimmo had 889 million EUR of available lines to finance its activity.

**1.9.8. Financial rating**

Since 2001, Cofinimmo has been granted a long- and short-term financial rating from the Standard & Poor's rating agency. On 20.04.2020, Standard & Poor's confirmed the Cofinimmo Group's BBB/stable outlook rating for the long term and A-2 for the short term. The Group's liquidity has been rated 'adequate'.

**1.9.9. Disposal of own shares**

In accordance with article 8:6 of Royal Decree of 29.04.2019 executing the Companies and Associations Code, Cofinimmo announced the disposal, on 25.06.2020, of 1,257 own shares on Euronext Brussels at an average price of 123.66 EUR per share. This disposal transaction was carried out by Gestone III SA/NV, a direct subsidiary of Cofinimmo. The shares sold are the result of the conversion into ordinary shares of the 1,257 preference I shares acquired by Gestone III SA/NV on 12.07.2019 in the absence of conversion requests<sup>1</sup>. For now Gestone III SA/NV does not plan to proceed with any further disposals of Cofinimmo shares.

**1.11. Environmental, Social and Governance (ESG)**

**1.11.1. Initiatives adopted in response to coronavirus COVID-19**

Following the outbreak of the COVID-19 coronavirus pandemic in the countries where the group is active, Cofinimmo has implemented several measures to ensure the continuity of its activities, while making the health and well-being of all its stakeholders its priority.

The measures taken with regard to teleworking (without recourse to temporary unemployment) were successful. A generalised teleworking system has been implemented without any problems from March until June 2020.

A co-operation with tenants has also been put in place to help them get through this difficult period. This requires an analysis of the specific situation of each tenant on a case-by-case basis.

In addition to the above-mentioned initiatives, Cofinimmo has defined a programme of targeted savings. Part of these savings enabled to feed the common fund-raising platform set up for the benefit of five academic hospitals that are on the front line in the fight against the coronavirus (operation #clapandact). The five hospitals (Cliniques Universitaires Saint-Luc UCL Bruxelles, UZ Brussel, CHU de Liège, UZ Antwerpen, Hôpital Erasme ULB) each received a donation.

Another aspect of the savings plan stems from the desire for solidarity unanimously expressed by the governance bodies of Cofinimmo (board of directors and executive committee). This solidarity is expressed by a reduction in the monthly remuneration of the members of the executive committee and by a reduction in the remuneration (mandate and attendance fees) of the directors. This 15% reduction has been implemented in April and will remain applicable until the end of the year. In addition, no attendance fees for board meetings dedicated to the management of the health crisis (such as that of the last board meeting that deliberated on this subject) are paid to directors.

The amount thus collected is doubled by Cofinimmo and allocated to one or more initiatives aiming at fighting against this pandemic and its effects. Hence, Cofinimmo intends to finance the Dr. Daniël De Coninck Fund, supported by the King Baudouin Foundation, which supports initiatives that assist the management and staff of nursing and care homes in Belgium. These initiatives may aim at supporting management during the crisis, the psychological well-being of the staff, the quality of care, the communication of the management towards the staff and the families, or the implementation of medical and ethical guidelines related to the crisis.

Other initiatives have been identified in France (through 'Fondation de France') and the Netherlands (through 'Oranje Fonds'), here again in the healthcare sector, and more particularly in nursing and care homes as well as hospitals.

The totality of the donations represents an envelope of 500,000 EUR.

**1.11.2. Sustainable portfolio and internal organisation**

As stated in the 2019 sustainability report, Cofinimmo has a clear vision and clear objectives when it comes to CO<sub>2</sub> reduction. This strategic thinking led to the ambitious project of reducing the energy intensity of the company's portfolio by 30% by 2030 compared to the 2017 level (project 30<sup>3</sup>).

The actions carried out within this framework include, among others, the installation of remote meters in the healthcare real estate portfolio.

Internally, Cofinimmo also introduces innovative measures to encourage the use of alternative modes of transportation, in particular the use of less polluting vehicles and the promotion of cycling and public transport. The mobility policy already included a mobility budget for employees benefiting from a company car. At the end of June, this mobility approach was extended to all employees in Belgium. For company cars, Cofinimmo is focusing on green mobility and more specifically on 'PHEV' cars (Plug-in Hybrid Electric Vehicle). The aim is to reduce CO<sub>2</sub> emissions linked to commuting, to take advantage of the Brussels public transport network and to create a real cyclists community within the Cofinimmo Group.

**1.11.3. Sustainable financing**

In accordance with its sustainability strategy, Cofinimmo intends to pursue a 'Green & Social' financing policy. This was launched in 2016 with the first issue of 'Green & Social Bonds' and extended in 2019 with a first 'Green & Social Loan', quickly followed by a second 'Green & Social Loan' in May 2020. The proceeds have been directly fully allocated to various green and social assets. The list of selected assets for each of the above-mentioned financing is available in the 2019 Sustainability Report.

In May 2020, Cofinimmo reviewed its sustainable financing framework in order to incorporate the latest trends in the specific financing of sustainable assets, projects and activities which contribute to its sustainability strategy. Vigeo Eiris confirmed in its Second Party Opinion that this financing framework was in line with the 2018 'Green Bond Principles', 'Social Bond Principles' and 'Green Loan Principles'. Under this framework, Cofinimmo can issue a variety of sustainable financing instruments, including bonds, convertible bonds, private placements and (syndicated) banking loan facilities.

The 'Green & Social Bonds' are part of the 'Euronext ESG Bonds' community, which brings together European issuers of 'Green & Social Bonds' that meet various objective criteria. Cofinimmo is currently one of the few issuers listed in Brussels participating in this committed European community. The other Belgian issuers being a Belgian banking group, the Belgian State, the Walloon Region and a Belgian wastewater treatment company.

**1.11.4. References, ratings and certifications**

Cofinimmo is in line with the objectives mentioned in the 2019 sustainable report.

Besides the information already mentioned in the 2019 annual financial report and the press release dated 13.02.2020, during the 1<sup>st</sup> half-year, Cofinimmo made further progress on ESG aspects:

- On 11.06.2020, Cofinimmo confirmed its participation in the 2020 questionnaire of the Carbon Disclosure Project on climate change;
- Cofinimmo will participate for the tenth time in the GRESB benchmark (The ESG<sup>1</sup> Benchmark for Real Assets). Given its overall score of 70% in 2019, Cofinimmo is part of the 'Green Star' category. This score has been steadily growing since 2014, where it amounted to 45%;
- The group is currently engaged in a proactive dialogue on the MSCI ESG Ratings<sup>2</sup>, for which the updated scores are not available yet;
- To date, four renovated or constructed sites have obtained 'Good' or 'Excellent' BREEAM certifications. These include the emblematic Quartz office building, whose provisional acceptance took place on 23.06.2020.

The board of directors believes that the main risk factors summarised on pages 2 to 5 of the 2019 universal registration document - annual financial report published on 09.04.2020 are still relevant for the remaining months of the 2020 financial year.

In addition to the information included in the 2019 annual financial report, and as already mentioned in the press releases dated 09.04.2020 and 28.04.2020), it is specified that:

- in the office segment, the surface areas rented directly to merchants (retailers, restaurants, ...) only account for approximately 0.2% of the Group's contractual rents;
- in the healthcare real estate segment, the wellness & sport centres account for less than 3% of the Group's contractual rents. These centres, located in Belgium and Germany, have been closed to the public since

March and are only (partially) open again since the end of May/beginning of June. The operators' loss of income was significant during this period, and a return to normal is happening gradually and in line with the measures taken to address the health crisis.

Taking into account the current status of investment files, and the evolution of the current crisis, the investment and divestment budget for 2020 published on 13.02.2020 (and detailed in the 2019 annual financial report – see also section 1.8 above) remains the Group's objective.

Based on the information currently available, and the evolution of the current crisis, the level of net result from core activities - Group share budgeted for 2020, should only be affected to a limited extent by the current situation in Europe (as announced in the press releases of 09.04.2020 and 28.04.2020); it is expected to be within the range of 6.60 to 6.85 EUR/share (compared to 7.10 EUR/share estimated on 13.02.2020). Based on this outlook, the budgeted gross dividend for the financial year 2020, payable in 2021, can be confirmed at EUR 5.80 per share.

Besides, in accordance with the Valuation Practice Alert of 02.04.2020 published by the Royal Institute of Chartered Surveyors ('RICS'), the independent real estate valuers' report mentions that it has been prepared taking into account a 'material valuation uncertainty', as defined by the RICS standards.

**Comments on the consolidated income statement - Analytical form (x 1,000 EUR)**

Rents (gross rental income) amount to 126 million EUR, compared to 114 million EUR as at 30.06.2019, up 10.6%, thanks to the acquisitions made between these two dates. On a like-for-like basis\*, gross rental income increased by 1.6% between 30.06.2019 and 30.06.2020 (see section 1.6.5). Rental income (after gratuities, concessions and termination indemnities - see note 5 of the attached consolidated interim financial statements) amounts to 123 million EUR, compared to 111 million EUR as at 30.06.2019, up 10% compared to 2019. In order to reflect the doubts as to the current ability of some tenants to pay their rents, and without prejudging the outcome of the discussions with these tenants, Cofinimmo has already booked writedowns (taken into account in the result outlook announced last April<sup>1</sup>) of around 2 million EUR over the 1<sup>st</sup> half-year. After taking these into account, rental income, net of rental charges, amounts to 121 million EUR, compared to EUR 112 million, up 8%, in line with the outlook announced last April.

The disposal of the Souverain/Vorst 23/25 at the end of 2019 resulted in a decrease in unrecovered taxes on buildings under renovation of almost 4 million EUR, in line with the outlook.

Refurbishment costs, net of tenant compensation for damages, are down by more than one million EUR, and are in line the outlook. By nature, these costs are exposed on a non-regular basis over the financial year or from one financial year to the next. The credit amount recorded in the 1<sup>st</sup> half-year comes from the recovery of compensations for damages.

Technical costs are also down by almost one million EUR. By nature, these costs are exposed on a non-regular basis over the financial year or from one financial year to the next. They are in line with the outlook.

The variation in corporate management costs between the 1<sup>st</sup> half-year of 2019 and the 1<sup>st</sup> half-year of 2020 is also in line with outlook. The corporate management costs of the 1<sup>st</sup> half-year of 2020 include the support (500,000 EUR) announced last April of initiatives aiming at fighting against the coronavirus pandemic and its effects in the healthcare sector, and more particularly in nursing and care homes as well as hospitals. The operating margin increases to 83.1%, compared to 82.2% as at 30.06.2019.

As a reminder, in application of IFRIC 21, taxes for which the triggering event has already occurred are recognised as at January 1<sup>st</sup> for the entire year. This is notably the case for withholding taxes, regional taxes and municipal taxes on office spaces.

Financial income decreased at 5 million EUR; last year's figure included non-recurring items for less than 3 million EUR, whereas the 2020 financial income includes non-recurring items for one million EUR booked

in the 1<sup>st</sup> half-year, and linked to the contributions in kind of 10.06.2020 (see note 6 of the interim summary financial statements attached).

The net interest charges decreased compared with last year, particularly thanks to the average cost of debt which decreased to 1.3%, compared to 1.5% as at 30.06.2019. The net interest charges are in line with the outlook.

The Group's momentum in terms of investments and financing, coupled with effective management of the existing portfolio, enabled the company to realise a net result from core activities - Group share of 88 million EUR as at 30.06.2020, in line with the outlook (compared to 75 million EUR that were made as at 30.06.2019), mainly due to scope variations of acquisitions made and the decrease in operating costs related to the office buildings sold. The net result from core activities - Group share amounts to 3.40 EUR per share (in line with the outlook, compared to 3.23 EUR as at 30.06.2019), and takes into account the issues of shares in 2019 and in June 2020. The average number of shares entitled to the result of the period evolved from 23,094,406 to 25,934,821 between these two dates.

As for the result of financial instruments, the item 'change in the fair value of financial instruments' amounted to -19 million EUR as at 30.06.2020, compared to -32 million EUR as at 30.06.2019. This variation is explained by the change in the forward interest rate curve between these two periods.

As for the result on the portfolio, the gains or losses on disposals of investment properties and other non-financial assets is stable at 3 million EUR. The item 'Changes in the fair value of investment properties' is 8 million EUR as at 30.06.2020 (35 million EUR as at 30.06.2019): the value appreciation of the healthcare real estate portfolios in Belgium and the Netherlands as well as that of office buildings located in the Central Business District of Brussels (CBD), largely compensated the value depreciation of some buildings. Without the initial effect from the changes in the scope, the changes in the fair value of investment properties is positive (+0.2%) for the first six months of 2020. The item 'Other result on the portfolio', is -25 million EUR as at 30.06.2020 and mainly comprises the effect of changes in the scope of consolidation, that of deferred taxes<sup>1</sup> and an impairment on goodwill (usually recorded, where applicable, at the end of the financial year rather than in the 1<sup>st</sup> half-year).

The net result - Group share amounted to 60 million EUR (i.e. 2.31 EUR per share) as at 30.06.2020, compared to 71 million EUR (i.e. 3.07 EUR per share) as at 30.06.2019. This fluctuation is mainly due to the increase of the net result - Group share and the changes in the value (investment properties, hedging instruments, goodwill, i.e. non-cash variations) between the 1<sup>st</sup> half-year of 2019 and the 1<sup>st</sup> half-year of 2020.

**Comments on the consolidated balance sheet**

The investment value of the property portfolio<sup>1</sup>, as determined by the independent real estate valuers, amounts to 4,648 million EUR as at 30.06.2020, compared to 4,428 million EUR as at 31.12.2019. The fair value, included in the consolidated balance sheet, in application of the IAS 40 standard, is obtained by deducting the transaction costs from the investment value. At 30.06.2020, fair value reached 4,460 million EUR, compared to 4,247 million EUR as at 31.12.2019, up 5%.

The level of trade receivables as at 30.06.2020 is comparable to that as at 31.12.2019. Despite the outbreak of the coronavirus COVID-19, the proportion of rents related to the 2<sup>nd</sup> quarter and actually collected as at 28.07.2020 (taking into account the writedowns recorded) is similar to the proportion collected as at 28.07.2019.

The item 'Participations in associated companies and joint ventures' refers to Cofinimmo's 51% stake in the joint ventures BPG CONGRES SA/NV and BPG HOTEL SA/NV. As at 31.12.2019, it also included Cofinimmo's 51% stake in Cofinea I SAS (nursing and care homes in France). ## **2.7. Notes to the interim summary financial statements**

### **Note 1. General information**

Cofinimmo SA/NV ('the Company') is a public RREC (Regulated Real Estate Company) organised under Belgian law with registered offices at 1200 Brussels (boulevard de la Woluwedal 58).

Cofinimmo SA/NV's interim summary financial statements, which closed on 30.06.2020, cover the Company and its subsidiaries ('the Group'). The scope of consolidation has changed since 31.12.2019 (see Note 14).

The interim summary financial statements were closed by the board of directors on 30.07.2020. The statutory auditor Deloitte, Réviseurs d'Entreprises/Bedrijfsrevisoren, represented by Mr Rik Neckebroeck, completed its limited audit and confirmed that it had no reservations with respect to the accounting information presented in the half-year financial report and that it corresponded to the financial statements closed by the board of directors.

### **Note 2. Significant accounting methods**

The consolidated half-year financial statements were prepared in accordance with IFRS standards (International Financial Reporting Standards) as executed by the Belgian Royal Decree of 13.07.2014 on Regulated Real Estate Companies and in accordance with the IAS 34 standard on Interim Financial Reporting.

The information included in the interim summary financial statements is not as comprehensive as that in the annual financial statements. Consequently, these interim summary financial statements must be read in conjunction with the annual financial statements.

The accounting principles and methods used to draw up these interim financial statements are identical to those used to prepare the annual financial statements for the 2019 financial year.

Some of the figures in this half-year financial report have been rounded and, consequently, the overall totals in the report may differ slightly from the exact arithmetical sums of the preceding figures.

The preparation of the financial statements requires the company to make significant judgments that affect the application of accounting methods and to proceed to a certain number of estimations. These assumptions are based on the management's experience, on the assistance of third parties (independent real estate valuers) and on various other sources that are believed to be relevant. Actual results may differ from these estimations. The estimations and underlying assumptions are reviewed on an ongoing basis and adapted accordingly. As part of the preparation of these consolidated financial statements as at 30.06.2020, the following items are specified in connection with the consideration of the coronavirus COVID-19 pandemic:

- As far as investment properties are concerned: in accordance with the Valuation Practice Alert of 02.04.2020 published by the Royal Institute of Chartered Surveyors ('RICS'), the independent real estate valuers' report mentions that it has been prepared taking into account a 'material valuation uncertainty', as defined by the RICS standards. Notwithstanding, as required by Article 47 of the Law of 12.05.2014 relating to Regulated Real Estate Companies, the independent real estate valuers assess the fair value of the properties. These assessments bind the regulated real estate company when establishing its statutory accounts and its consolidated accounts.
- As far as finance lease receivables are concerned: the Group considers that there is no need to modify the assessment parameters with respect to what is mentioned in note 26 of the consolidated financial statements as at 31.12.2019, given the quality of the tenants and the low credit risk associated with financial lease contracts.

**REGULATED INFORMATION**

Brussels, embargo until 30.07.2020, 5:40 PM CET

- As far as trade receivables are concerned: the Group has recognised writedowns for a total of 1.9 million EUR as at 30.06.2020, compared to writebacks on impairment of 0.7 million EUR as at 30.06.2019. The Group considers that the book value of the trade receivables approximates their fair value. For the surplus, the Group considers that there is no need to modify the assessment parameters with respect to what is mentioned in note 28 of the consolidated financial statements as at 31.12.2019, given the quality of the tenants and the low credit risk associated with trade receivables net of writedowns.

**Note 3. Operational and financial risk management**

The risks to which the Group was exposed at 30.06.2020 were substantially the same as those identified and described in the 2019 annual financial report. Risk was managed using the same methods and the same criteria during the half-year as during the previous financial year.

Aspects related to the COVID-19 coronavirus are mentioned in the section 'Main risks and uncertainties' in section 1.13 of the management report.

Consolidation criteria

The consolidation criteria published in the 2019 annual financial report have not been changed and are still used by the Cofinimmo Group.

**Note 15. Transactions between related parties**

On 05.06.2020, Cofinimmo repurchased Orpea's participation in the joint venture Cofinea I SAS for a total amount of almost 8 million EUR. In accordance with Article 37 § 1 of the Law of 12.05.2014 on regulated real estate companies, the operation had previously been brought to the attention of the FSMA (see appendix 3 attached). Cofinimmo now holds 100% of the capital of this French subsidiary, which owns an investment property valued at approximately 24 million EUR to which an investment loan of 9 million EUR is attached.

On 25.06.2020, Cofinimmo signed the authentic deed enabling the assignment of a 99-year long-lease relating to the Serenitas<sup>1</sup> and Moulin à Papier/Papiermolen<sup>2</sup> office buildings to BPI Real Estate Belgium in accordance with the agreements concluded on 14.12.2018 (see press release dated 24.12.2018). As announced at the time, the assignment of the property rights relating to these two buildings, located in the decentralised area of Brussels, amounts to approximately 27 million EUR. These agreements had previously been brought to the attention of the FSMA (see appendix to the press release dated 24.12.2018).

There were no transactions between related parties in the 1<sup>st</sup> half-year of 2020 as meant in the IAS 34 standard and Article 8 of the Royal Decree of 13.07.2014, other than those described in Note 44 of the consolidated financial statements as at 31.12.2019 (page 212 of the 2019 annual financial report).

**IMPAIRMENT TEST**

At the end of 1<sup>st</sup> half-year of the 2020 financial year, the goodwill was subject to an impairment test (executed on the groups of properties to which it was allocated per country), by comparing the fair value of the properties plus the goodwill to their value in use, according to the same principles as those set out in Note 21 above.

For the 1<sup>st</sup> half-year of the 2020 financial year, the result of this test (illustrated in the table above) leads to an impairment of 5,520 KEUR on the goodwill of Pubstone Belgium and an impairment of 4,600 KEUR on the goodwill of Pubstone Netherlands. During the 2020 financial year, the fair value of the Pubstone Belgium portfolio recorded a negative variation of 166 KEUR, whereas the Pubstone Netherlands portfolio recorded a positive variation of 179 KEUR respectively.

**ASSUMPTIONS USED IN THE CALCULATION OF THE VALUE IN USE OF PUBSTONE**

A projection of future net cash flows was prepared according to the same methodology as that set out in Note 21 above.

The sale price of the properties at the end of the lease and the residual value are based on the average value of the portfolio per square metre assessed by the valuer at 30.06.2020 indexed to 1.0% (2019: 1.2%) per year.

The indexation considered on these cash flows stands at 1.0% for Pubstone Belgium and 1.0% for Pubstone Netherlands. In 2019, the indexation was 1.4% for Pubstone Belgium and 1.4% for Pubstone Netherlands.

The discount rate used amounts to 5.02% (2019: 5.14%).

Real estate Valuer's report

Brussels, 8 July 2020

To the Board of Cofinimmo s.a./n.v.

**Re: Valuation as of 30 June 2020**

***Context***

Cushman & Wakefield (C&W), PwC and JLL srl/bv have each separately valued a part of the portfolio of offices and other properties.

C&W and JLL Expertises France have each separately valued part of the portfolio of nursing homes and other care facilities in France.

The portfolio of clinics in The Netherlands has been valued by PricewaterhouseCoopers Belastingadviseurs N.V. (KvK 34180284) (hereinafter: "PwC Netherlands").

The portfolio of healthcare in Germany has been valued by PricewaterhouseCoopers GmbH Wirtschaftsprüfungsgesellschaft (hereinafter "PwC Germany").

As is customary, our assignment has been carried out on the basis of information provided by Cofinimmo regarding tenancy schedules, charges and taxes borne by the landlord, works to be carried

out and all other factors that could affect property values. We assume that the information provided is complete and accurate.

Our valuation reports do not in any way constitute an assessment of the structural or technical quality of the buildings or an in-depth analysis of their energy efficiency or of the potential presence of harmful substances. This information is well known to Cofinimmo, which manages its properties in a professional way and performs technical and legal due diligence before acquiring each property.

***Opinion***

We confirm that our valuation has been done in accordance with national and international market practices and standards (International Valuation Standards issued by the International Valuation Standards Council and included in RICS Valuation – Professional Standards January 2020, the Red Book of the Royal Institute of Chartered Surveyors).

The Investment value (in the context of this valuation) is defined as the amount most likely to be obtained at normal conditions of sale between willing and well-informed parties, inclusive of transactions costs (mainly transfer taxes) to be paid by the acquirer. It does not reflect the costs of future investments that could improve the property or the benefits associated with such costs.

***Valuation methodology***

The valuation methodology adopted is mainly based on the following methods:

**METHOD OF ESTIMATED RENTAL VALUE CAPITALISATION (ERV CAPITALISATION)**

This method consists in capitalising the estimated rental value of the property by using a capitalisation rate ('yield') in line with the investment market. The choice of the capitalisation rate used is linked to the capitalisation rates applied in the real estate investment market, which takes into account the property location, the quality of the buildings and that of the tenant, and the quality and duration of the lease at the valuation date. The rate corresponds to the rate anticipated by potential investors at the valuation date. To determine the estimated rental value, one takes into account the market data, the location of the property and the quality of the building.

The resulting value must be adjusted if the passing rent generates operational income higher or lower than the estimated market value used for capitalisation. The valuation takes into consideration the charges that will need to be incurred in the near future.

**DISCOUNTED CASH FLOW METHOD (DCF)**

Under this method, it is required to assess the net rental income generated by the property on a yearly basis for a specific period and discounted at today's value. The projection period generally varies between 10 and 18 years. At the end of the period, a residual value is calculated using a capitalisation rate that takes into account the anticipated condition of the building at the end of the projection period, discounted at today's value.

**REGULATED INFORMATION**

Brussels, embargo until 30.07.2020, 5:40 PM CET

RESIDUAL VALUE METHOD

The value of a project is determined by defining the development potential on site. This implies that the intended use of the project is known or foreseeable in a qualitative (planning) and quantitative manner (number of square metres that can be developed, future rents, etc.). The value is obtained by deducting the costs upon completion of the project from its anticipated value.

APPROACH BY MARKET COMPARABLES

This method is based on the principle that a potential purchaser will not pay more for the acquisition of a property than the price recently paid on the market for similar properties.

***Transaction Costs***

In theory, the disposal of properties is subject to a transfer tax charged by the Government and paid by the acquirer, which represent substantially all transaction costs. For properties situated in Belgium, the amount of this tax mainly depends on the mode of transfer, the capacity in which the acquirer acts and the property's location. The first two variables, and therefore the amount of tax payable, are only known once the sale is contracted. Based on a study from independent real estate experts dated 8 February 2006 and reviewed on June 30<sup>th</sup> 2016, the "average" transaction cost for properties over EUR 2,500,000 is assessed at 2.5%.

The fair value (as defined under IFRS 13 and by the BEAMA's (Belgian Asset Managers Association) press release of 8 February 2006 and reviewed on 30/06/2016) for properties over EUR 2,500,000 can therefore be obtained by deducting 2.5% of "average" transaction cost from their investment value. This 2.5% figure will be reviewed periodically and adjusted if on the institutional investment transaction market a change of at least +/- 0.5% in the effectively "average" transaction cost is observed.

For properties with an investment value under € 2,500,000 transfer taxes of 10% or 12.5% have been subtracted, depending on the region of Belgium where they are situated.

The transfer taxes on properties in France, Germany, the Netherlands and Spain have been deducted in full from their investment values to obtain their fair values.

***Assets subject to a sale of receivables***

Cofinimmo is owner of several buildings of which the rents have been sold in the past to a third party. The valuers have valued those properties as freehold (before sale of receivables). At the request of Cofinimmo, the values mentioned below represent for these buildings the freehold value net of the rents still due (residual value), as calculated by Cofinimmo. This calculation by Cofinimmo has not been analysed in depth by the valuers. In the forthcoming quarters, the residual value will evolve in such a way as to be, at the maturity of the sale of the receivables, equivalent to the freehold value.

**REGULATED INFORMATION**

Brussels, embargo until 30.07.2020, 5:40 PM CET

***Investment value and sale value (fair value)***

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a 'global pandemic' on 11 March 2020, has impacted global financial markets. Travel restrictions have been implemented by many countries. Market activity is being impacted in many sectors. As at the valuation date, we consider that we can attach less weight to previous market evidence for comparison purposes, to inform opinions of value. Indeed, the current response to COVID-19 means that we are faced with an unprecedented set of circumstances on which to base a judgement.

The current general economic situation remains uncertain and in the absence of market evidence demonstrating that the values in the different real estate market segments have fluctuated, our valuation is therefore reported on the basis of 'material valuation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution – should be attached to our valuation than would normally be the case.

**Taking into account the three opinions, the investment value (transaction costs not deducted) of Cofinimmo's total real estate portfolio as of 30 June 2020 is estimated at EUR 4,648,225,000.**

**Taking into account the three opinions, the fair value, after the deduction of the "transaction" transfer costs, of Cofinimmo's total real estate portfolio as of 30 June 2020, corresponding to the fair investment value under IAS/IFRS, is estimated at EUR 4,460,300,000.**

On this basis, the yield on rent, received or contracted, including from assets that form the object of an assignment of receivables, but excluding projects, buildings undergoing refurbishment, development sites and buildings held for sale, and after the application of imputed rent to the premises occupied by Cofinimmo, amounts to 6,0% of the investment value.

If the properties were to be let in full, the yield would increase to 6,1%.

Investment properties have an occupancy rate of 97,5%.

The contractually passing rent and the estimated rental value on the empty spaces (excluding projects, buildings undergoing refurbishment, development sites and assets held for sale) is more than 2,5% above the estimated rental value for the whole portfolio at this date.

**Cofinimmo SA/NV** | 30 June 2020

**Report on the review of the consolidated interim financial information of Cofinimmo SA/NV for the six-month period ended 30 June 2020**

In the context of our appointment as the company's statutory auditor, we report to you on the consolidated interim financial information. This consolidated interim financial information comprises the consolidated condensed balance as at 30 June 2020, the consolidated condensed income statement, the consolidated condensed statement of comprehensive income, the consolidated condensed statement of changes in equity and the consolidated condensed statement of cash flows for the period of six months then ended, as well as selective notes 1 to 16.

**Report on the consolidated interim financial information**

We have reviewed the consolidated interim financial information of Cofinimmo SA/NV ("the company") and its subsidiaries (jointly "the group"), prepared in accordance with International Accounting Standard (IAS) 34, "Interim Financial Reporting" as adopted by the European Union.

The consolidated condensed balance shows total assets of 4 746 million EUR and the consolidated condensed income statement shows a consolidated profit (group share) for the period then ended of 60 million EUR.

The board of directors of the company is responsible for the preparation and fair presentation of the consolidated interim financial information in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on this consolidated interim financial information based on our review.

**Scope of review**

We conducted our review of the consolidated interim financial information in accordance with International Standard on Review Engagements (ISRE) 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit performed in accordance with the International Standards on Auditing (ISA) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated interim financial information.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim financial information of Cofinimmo SA/NV has not been prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting" as adopted by the European Union.

**Emphasis of matter – Valuation of investment properties**

Without modifying our conclusion, we draw attention to note 2 of the consolidated interim financial information, which describes the effects of the uncertainties created by the coronavirus (COVID-19) pandemic on the valuation of the company's investment property portfolio.

**5.3. Appendix 3: Prior notification to the FSMA in accordance with Article 37 § 1 of the law of 12 May 2014 on regulated real estate companies**

In accordance with Article 37 § 1 of the Law of 12 May 2014 on regulated real estate companies (the 'RREC Law'), COFINIMMO has informed the FSMA (Financial Services and Markets Authority) that itself, on the one hand, and AMUNDI IMMOBILIER NOVATION SANTE and ORPEA, on the other hand, hereinafter referred to as 'the Parties', have agreed to carry out certain transactions in reference with COFINEA I on 5 June 2020.

- COFINIMMO holds 51% of the shares of COFINEA I
- AMUNDI IMMOBILIER NOVATION SANTE holds 49% of the remaining shares.
- ORPEA indirectly holds 100% of the shares of AMUNDI IMMOBILIER NOVATION SANTE
- COFINEA I owns the nursing and care home 'Les Musiciens' located Rue Germaine Tailleferre 7-9, 75019 Paris.
- ORPEA is the operator of the nursing and care home 'Les Musiciens'

The Parties will sign agreements allowing COFINIMMO to acquire the shares of COFINEA I held by AMUNDI IMMOBILIER NOVATION SANTE, so that it will become the sole shareholder. COFINEA I, which was accounted for using the equity method, will therefore be included in the full consolidation of the COFINIMMO Group. The transactions considered are carried out under normal market conditions and, in accordance with Article 49§2 of the RREC Law, all of these transactions have been carried out taking into account a 'fair value' as determined by Jones Lang LaSalle France, an independent real estate valuer acting on behalf of COFINIMMO.
